Amac Aerospace Switzerland expanded its approvals with the addition of a Part 145 maintenance approval for the Airbus A340-500/-600. The company already holds Part 145 maintenance approval for Airbus A340-200/-300. Recently the MRO returned to service a VIP BBJ 737-700 for an undisclosed customer.

Amac also offers various cabin modification and upholstery work, as well as a Tcas 7.1 upgrade under an EASA STC carried out by the company.
