

10/05/2016 AMAC ACQUIRES PREMIUM LAND BASED AT MILAS BODRUM AIRPORT, TURKEY

AMAC Aerospace Switzerland Ltd. has successfully signed a contract with the Turkish Airport Authorities to acquire 6,400m² of premium land based at Milas Bodrum Airport, Turkey. The land surface will allow for a hangar to be built of 4'000m². In addition to that, AMAC Aerospace is proud to announce that three

PC-12s have been sold to the Middle East region.

The land surface at Milas Bodrum Airport will allow either 2x A321's to sit wing tip to wing tip or 2x Boeing 737-800 NG's. The services to be provided will be both 'LINE & BASE Maintenance' as with 'Corporate & Commercial' maintenance activities for the aforementioned Aircraft OEM's and their respective models, Airbus A318/319/320/321 and Boeing B737-300/400/500/600/700 and -800, also the support of Dassault Falcon 2000, 900 series and Pilatus PC 12.

"AMAC Aerospace have gauged the market to make this exciting venture come to reality and further enhances AMAC's presence in the Turkish region to stimulate options for our esteemed clientele in the Middle East region" said Mr. Kadri Muhiddin, group executive chairman & chief executive officer. The hangar will be handed to AMAC Aerospace in November 2016 with a launch customer being Tailwind Airlines to perform 7 C checks on their B737-400s and B737-800s aircraft.
