

Agreement: Switzerland based AMAC Aerospace and UTC Aerospace Systems

UTC Aerospace Systems, a unit of United Technologies Corp. (NYSE: UTX) has been selected by AMAC Aerospace, a provider of business jet and VIP aircraft completion services, to offer nacelle maintenance. Under terms of the five-year agreement, UTC Aerospace Systems will provide global maintenance solutions including, tailored nacelle and engine build-up, and lease and exchange services. The collective expertise of UTC Aerospace Systems and AMAC Aerospace will create a best-in-class experience for business jet and VIP aircraft customers.

This agreement enhances UTC Aerospace's presence in the business jet and VIP aircraft segment. Most recently, UTC Aerospace Systems announced that it has been selected by Dassault Aviation to provide an advanced nacelle system for its new Falcon 6X business jet.

"This agreement will enable us to leverage our global MRO network and commercial aircraft experience for the business jet and VIP aircraft segment," said Aerostructures President Marc Duvall. "We are delighted to work with AMAC, the premier provider of business jet and VIP aircraft completion services. This powerful combination of AMAC Aerospace and UTC Aerospace systems will deliver compelling customer value."
