

First BBJ MAX 9 completion contract for AMAC Aerospace

Euroairport, January 15, 2019 – AMAC Aerospace has announced a new completion contract has been signed for a BBJ MAX 9. The aircraft will enter AMAC's hangar facility in Switzerland in 2020.

It will be the first BBJ MAX 9 fully equipped by AMAC Aerospace in Switzerland. The interior design, conceived by world renowned interior designer Gaugain, will be a very special and unique cabin interior.

Since 2010 AMAC has completed several completions projects successfully and the AMAC Aerospace teams are looking forward to this new challenging project for 2019/2020.

"We are very pleased to open our hangar doors for our first BBJ MAX 9 completion project. We are proud of our teams which have already started on the design package and the mock-up for this project and we are looking forward to 2020 to start the new challenge." – said Bernd Schramm, Group Chief Operating Officer.
