

AMAC CORPORATE JET

AN AMAC AEROSPACE COMPANY

AMAC Corporate Jet AG
Aircraft Management & Charter Services
Zurich, Switzerland

Aircraft Management Services

AMAC Corporate Jet AG provides comprehensive full service management packages with turnkey solutions for worry-free, cost-effective aircraft ownership. The following is an overview of our palette of services.

Crewing

Choose only from the best. Our pre-screening, exclusive selection and training of aircrews secures your peace of mind. Top-in-class crew performance standards are ensured by internal training, annual simulator tests and regular refresher courses and benefitting from the excellent Swiss employment system, our crews are highly motivated to perform to the best of standards. Their training result in additional advantages for you in the form of volume discounts with training providers and low rates at training facilities. We manage all crewing administration details, payroll and social security so that you can spend your time in the air.

Flight Support

Our worldwide, year-round 24/7 dispatch and flight-coordination center handles the flight requests, flight planning, flight coordination and any other services you will ever need. Manned by experienced and highly qualified staff, AMAC is equipped with the latest flight-watch software and technology. Supervision, security and safety are our goals.

Fuel Arrangements

Negotiating rock-bottom fuel prices for clients in over 150 destinations is an essential AMAC service as fuel is the best way to leverage savings around the world. You will profit from our networks and negotiating advantages to leverage savings, and benefit from uplifts on credit. Fuel carnets will be awaiting you upon arrival at your aircraft.

Fleet Insurance

Our staff, highly experienced in insurance negotiations and options, will arrange outstanding coverage for you at special **hull-liability** and **war-risk** insurance rates. We will also manage loss and claim handling, should the need arise. Fleet insurance goes a long way to ensuring peace of mind.

Cost Control

Invoice supervision is a service we also guarantee. Our accounting and administration department will provide you with a monthly statement detailing costs for expenses related to your aircraft's operation, as well as a monthly reporting package. Upon request, we will assume supervisory responsibility for your finances. Restraint, security and good council are the keys to cost control.

Savings

Cost sensitivity is a key determinant of value. Profit from the significant advantages unavailable to those who manage their own aircraft. These savings result from lower insurance rates within AMAC's own fleet policy, low training facility rates because of our volume discounts and also, as experts in fuel negotiations, we will reduce your fuel costs to the lowest possible rates. Our management services will save you money while buying you time.

Personal Maintenance Coordinator

A skilled maintenance workforce is at your service. An AMAC maintenance coordinator will be dedicated to your specific needs, assuming all administrative responsibility and supervising your aircraft's service bulletins and airworthiness directives so you can be free to fly. Your designated coordinator will negotiate contracts and plan your maintenance events to minimize downtime and maximize flight time.

Approvals

- Federal Office of Civil Aviation - FOCA NCC Declaration – Ref: CH.NCC.2056
- Federal Office of Civil Aviation - FOCA Air Operator Certificate – Ref: CH.AOC.1058

Excellence in Charter Services

AMAC Corporate Jet AG, our charter division, offers exclusive air charter services for business, executive, group, private and VIP jet charter travel in any type of aircraft anywhere in the world – whether turboprop, small, medium sized or heavy jets, ultra-long-range or VIP airliners.

We provide helicopter charter of all types and sizes as well. We will tailor your aircraft to your needs according to your specified budget. Safety coupled with Swiss courtesy, efficiency and excellence is our trademark. Expect supreme comfort from the moment of your arrival at one of our well-networked fixed-base operations (FBOs) or airport terminals, on through to security handling upon arrival. Our goals: safety, convenience and your pleasure in our services. We are available 24/7 every day of the year.

Excellence in Aircraft Management

AMAC Aerospace was founded on aviation expertise born of extensive industry engagement. Our founders who joined forces to launch AMAC Corporate Jet AG are some of the industry's best aviation specialists, who offer management & charter services. Now the largest privately-owned facility in the world, AMAC offers private, VIP and corporate aviation services.

Aircraft management has evolved to ensure that the pleasure of aircraft ownership outweighs the burden of responsibility. As experts in aircraft management, we are specialists in maintaining the balance. AMAC assigns you a small, personalized team trained to carefully align your needs with your wishes.

Every flight is as individual as you are. AMAC crews and dispatchers, our maintenance coordinators and administrative staff are all recruited and trained to the highest standards to make sure each flight meets your personal expectations. Maximize your pleasure by minimizing your obligations.
